

A PARTNERSHIP WITH INDUSTRY AND SMEs

EUROPE'S CONTRIBUTION MANAGED THROUGH:
GRANTS TO FINANCE R&D ACTIONS
PROCUREMENT TO AWARD CONTRACTS

INDUSTRIAL LIAISON OFFICERS (ILOs) TO
DISSEMINATE INFORMATION AND PROMOTE
NETWORKING

ITER will be the world's largest experimental fusion facility. Europe finances almost half of the costs of its construction, while the other six Members (China, Japan, India, the Republic of Korea, the Russian Federation and the USA) are contributing equally to the rest.

Fusion for Energy (F4E) is the European Union's organisation for Europe's contribution to ITER.

One of the main tasks of F4E is to work together with European industry, SMEs and research organisations to develop and provide a wide range of high technology components together with engineering, maintenance and support services for the ITER project.
