

Technical Specifications (In-Cash Procurement)

**Call for Nomination for the design and construction of the
CMA Office Building**

This Call for Nomination is to seek companies interested in participating in the tender for the design and construction of a modular office building to house the Construction Management as-Agent contractor staff.

Design and Construction of Modular Office Building

Call for Nomination

Introduction

The ITER Project is a joint international research project that aims to demonstrate the scientific and technical feasibility of nuclear fusion power. The members involved in the ITER Project are China, the European Union, India, Japan, Korea, Russia and the United States. ITER is being constructed in Europe, at Cadarache in the South of France. The construction of the ITER Tokamak and its associated plant systems represent one of the world's largest and most ambitious projects in terms of scope, cost and schedule.

For further details of the project, please visit the ITER website: www.iter.org.

In order to house part of its site staff, the ITER Organization intends to place a Turnkey Contract for the construction of a temporary prefabricated office accommodation on the ITER Site.

Scope of the services

The scope of the services to be performed by the tenderer awarded for the contract will include the design, fabrication, delivery and installation of a 3-storey modular type building providing space for around 220 desks (average floor surface of 10m² per desk), meeting rooms, toilet facilities, cafeteria areas and technical rooms, including foundations and connection to site utilities.

Required expertise

Candidates shall demonstrate adequate experience in the turn-key design and construction of modular buildings of similar size, covering all involved disciplines.

Candidates shall further have knowledge of French regulations related to Health, Safety & Environmental protection and be able to communicate effectively both in English and French language.

ISO 9001 certification is required.

Timetable

The tentative timetable is as follows:

Call for Tender	November-December 2015
Tender submission	January 2016
Contract Award	February 2016
Construction start	March 2016
Taking over	September 2016

Candidature

Participation is open to all legal persons participating either individually or in a grouping (consortium) which is established in an ITER Member State. A legal person cannot participate individually or as a consortium partner in more than one application or tender. A consortium may be a permanent, legally-established grouping or a grouping, which has been constituted informally for a specific tender procedure. All members of a consortium (i.e. the leader and all other members) are jointly and severally liable to the ITER Organization.

The consortium groupings shall be presented at the pre-qualification stage. The tenderer's composition cannot be modified without the approval of the ITER Organization after the pre-qualification.

Legal entities belonging to the same legal grouping are allowed to participate separately if they are able to demonstrate independent technical and financial capacities. Candidates (individual or consortium) must comply with the selection criteria. The IO reserves the right to disregard duplicated reference projects and may exclude such legal entities from the pre-qualification procedure.
