

# Framework Contract for Pre-fabricated Warehouses Supply and Installation

## Call for Nomination

### **Introduction**

ITER is a joint international research and development project aiming to demonstrate the scientific and technological feasibility of fusion power for peaceful purposes. The seven members of the ITER Organization are: The European Union (represented by EURATOM), Japan, the People's Republic of China, India, the Republic of Korea, the Russian Federation and the USA.

The ITER Organization is located in Saint Paul lez Durance – France.

Further information is available on the ITER website: <http://www.iter.org>

ITER components have started to be delivered to the ITER site and some components need to be stored indoor.

The objective of this tender is to implement a framework contract for the supply and installation of modular pre-fabricated temporary warehouses (hereafter abbreviated as warehouses) with a defined price list to address storage demand.

The Contractor shall erect the warehouses within short construction period.

### **Scope of the Contract**

- Supply and installation of the warehouses upon ITER Organization demand; the maximum span width of the warehouses need to be 30 meters, and the maximum eave height 7 meters. The warehouses shall be weathertight and have the minimum design life of 5 years
- Supply, installation, test, commission and hand-over of all the necessary mechanical and electrical systems within the warehouse buildings, e.g. megadoors, lighting, heating, fire-protection equipment, etc.

The pre-fabricated temporary warehouses can be erected at several locations within the ITER site.

### **Required expertise**

Candidates shall demonstrate adequate experience in the turn-key supply and site installation of pre-fabricated modular warehouses within short construction periods.

Candidates shall have knowledge of French regulations related to Health, Safety &

Environmental protection and be able to communicate effectively both in English and French languages.

ISO 9001 quality certification or ITER approved QA program is required.

**Timetable**

Call for Nomination issuance:	Mid-April 2016
Call for tender (incl. Pre-Qualification Application):	Mid May 2016
Call for tender submission:	July 2016
Contract award:	September/October 2016

**Candidature**

Participation is open to all legal persons participating either individually or in a grouping (consortium) which is established in an ITER Member State. A legal person cannot participate individually or as a consortium partner in more than one application or tender. A consortium may be a permanent, legally-established grouping or a grouping, which has been constituted informally for a specific tender procedure. All members of a consortium (i.e. the leader and all other members) are jointly and severally liable to the ITER Organization.

The consortium groupings shall be presented at the pre-qualification stage. The tenderer's composition cannot be modified without the approval of the ITER Organization after the pre-qualification.

Legal entities belonging to the same legal grouping are allowed to participate separately if they are able to demonstrate independent technical and financial capacities. Candidates (individual or consortium) must comply with the selection criteria. The IO reserves the right to disregard duplicated reference projects and may exclude such legal entities from the pre-qualification procedure.
