Some processing may also be necessary during the assessment of a claim/disputes under Article II.27 [Settlement of disputes]

Through this process, personal data of employees of F4E’s Contractors will be processed.

2. What is the justification for the processing?

Processing of your data is necessary for the performance of F4E tasks on the basis of the F4E founding instrument. It is based on:

Statutes annexed to the Council Decision (Euratom) No 198/2007 "establishing the European Joint Undertaking for ITER and the Development of Fusion Energy and conferring advantages upon it", as last amended on 10 February 2015, in particular Article 10 thereof;

5. How long does F4E store my data?

Files including all the documents related to a claim procedure which could comprise personal data of Contractor’s personnel should be kept up to 7 (seven) years after payment of the final instalment of the Contract Price. Also after this period the files will be subjected to a sample/selection for elimination or preservation. Files might be retained until the end of a possible audit or Court Proceeding if one started before the end of the above period.

6. Does F4E intend to transfer my data to third countries or International Organizations?

Staff of the ITER (International Thermonuclear Experimental Reactor) Organisation (F4E is ITER’s European Domestic Agency) could exceptionally be involved in the claim assessment procedure, in the framework of the implementation of F4E contracts. This transfer would in any case be necessary for the performance of the particular F4E contracts.
