After consulting the Staff Committee,

Whereas:

- (1) Fusion for Energy carries out its activities in accordance with the Statutes annexed to the Decision 2007/198/Euratom.
- (2) In accordance with Article 25(1) of Regulation (EU) 2018/1725 restrictions of the application of Articles 14 to 22, 35 and 36, as well as Article 4 of that Regulation in so far as its provisions correspond to the rights and obligations provided for in Articles 14 to 22 should be based on internal rules to be adopted by Fusion for Energy where these are not based on legal acts adopted on the basis of the Treaties.
- (3) These internal rules, including its provisions on the assessment of the necessity and proportionality of a restriction, should not apply where a legal act adopted on the basis of the Treaties provides for a restriction of data subject rights.
- (4) Where Fusion for Energy performs its duties with respect to data subject's rights under Regulation (EU) 2018/1725, it shall consider whether any of the exemptions laid down in that Regulation apply.

<sup>(1)</sup> OJ L 295, 21.11.2018, p. 39.

<sup>(2)</sup> OJ L 90, 30.3.2007, p. 58.

<sup>(3)</sup> OJ L 248, 18.9.2013, p. 1.

- (5) Within the framework of its administrative functioning, Fusion for Energy may conduct administrative inquiries and disciplinary proceedings in line with the rules laid down in the Staff Regulations.

Fusion for Energy may also carry out in particular preliminary activities related to cases of potential irregularities reported to OLAF, process whistleblowing cases, process (formal and informal) procedures of harassment, process internal and external complaints, process medical data, conduct internal audits, carry out investigations by the Data Protection Officer in line with Article 45(2) of Regulation (EU) 2018/1725 and (IT) security investigations handled internally or with external involvement (e.g. CERT-EU).

- (6) Fusion for Energy processes several categories of personal data, including hard data ('objective' data such as identification data, contact data, professional data, administrative details, data received from specific sources, electronic communications and traffic data) and/or soft data ('subjective' data related to the case such as reasoning, behavioural data, appraisals, performance and conduct data and data related to or brought forward in connection with the subject matter of the procedure or activity).
- (7) Fusion for Energy, represented by its Director, acts as the data controller irrespective of further delegations of the controller role within Fusion for Energy to reflect operational responsibilities for specific personal data processing operations.
- (8) The personal data are stored securely in an electronic environment or on paper preventing unlawful access or transfer of data to persons who do not have a need to know. The personal data processed are retained for no longer than necessary and appropriate for the purposes for which the data are processed for the period specified in the data protection notices, privacy statements or records of Fusion for Energy.
- (9) The internal rules should also apply to processing operations carried out prior to the opening of the procedures referred to recital 5, during these procedures and during the monitoring of the follow-up to the outcome of these procedures. It should also include assistance and cooperation provided by Fusion for Energy to national authorities and international organisations outside of its administrative investigations.

These internal rules should also apply to activities related to cooperation with, and the transmission of information regarding an administrative inquiry or disciplinary proceedings to EU institutions and bodies. To that effect, Fusion for Energy should consult those institutions, bodies, offices, agencies, authorities or organisations on the relevant grounds for imposing restrictions and on the necessity and proportionality of the restrictions.

- (10) In the cases where these internal rules apply Fusion for Energy has to give justifications explaining why the restrictions are strictly necessary and proportionate in a democratic society and respect the essence of the fundamental rights and freedoms.
- (11) Within this framework Fusion for Energy is bound to respect, to the maximum extent possible, the fundamental rights of the data subjects during the above procedures, in particular, those relating to the right of provision of information, access and rectification, right to erasure, restriction of processing, right of communication of a personal data breach to the data subject or confidentiality of communication as enshrined in Regulation (EU) 2018/1725.
- (12) However, Fusion for Energy may be obliged to restrict the information to data subject and other data subject's rights to protect, in particular, its own investigations and procedures, the investigations and proceedings of other public authorities, as well as the rights of other persons related to its investigations or other procedures.
- (13) Fusion for Energy may thus restrict the information for the purpose of protecting the investigation and the fundamental rights and freedoms of other data subjects.

Fusion for Energy may in particular defer the information for the purposes to protect its administrative inquiries and disciplinary proceedings, the investigations and proceedings of other public authorities as well as to protect the identity of informants and other persons involved in the procedures, including whistle-blowers and witnesses who should not suffer negative repercussions in relation to their cooperation.

Pursuant to Article 25(8) of Regulation (EU) 2018/1725, the controller may defer, omit or deny from providing information on the reasons for the application of a restriction to the data subject, if the information would cancel the effect of the restriction imposed.

- (14) Fusion for Energy should periodically monitor that the conditions that justify the restriction still exist and lift the restriction when those conditions no longer apply.
- (15) The Controller should inform the Data Protection Officer (“DPO”) at the moment of deferral of information or when other restrictions of data subject rights are applied, and during the revisions,

2. Within the framework of the administrative functioning of Fusion for Energy this Decision applies to the processing operations on personal data by Fusion for Energy for the purposes of: conducting administrative inquiries and disciplinary proceedings, as well as carrying out preliminary activities related to cases of potential irregularities reported to OLAF, processing whistleblowing cases, processing (formal and informal) procedures of harassment, processing internal and external complaints, processing medical data, conducting internal audits, carrying out investigations by the Data Protection Officer in line with Article 45(2) of Regulation (EU) 2018/1725 and (IT) security investigations handled internally or with external involvement (e.g. CERT-EU).

In addition, this Decision applies to activities related to cooperation with, and the transmission of information regarding an administrative inquiry or disciplinary proceedings to EU institutions and bodies, when such information is necessary for the recipient to evaluate the grounds for opening formal investigation or proceedings.

3. The categories of data concerned are hard data (‘objective’ data such as identification data, contact data, professional data, administrative details, data received from specific sources, electronic communications and traffic data) and/or soft data (‘subjective’ data related to the case such as reasoning, behavioural data, appraisals, performance and conduct data and data related to or brought forward in connection with the subject matter of the procedure or activity).

4. Where Fusion for Energy performs its duties with respect to data subject’s rights under Regulation (EU) 2018/1725, it shall consider whether any of the exemptions laid down in that Regulation apply.

5. Subject to the conditions set out in this Decision, the restrictions may apply to the following rights: provision of information to data subjects, right of access, rectification, erasure, restriction of processing, communication of a personal data breach to the data subject or confidentiality of communication.

#### *Article 2*

It shall in any event not be longer than the retention period specified in the data protection notices, privacy statements or records referred to in Article 5(1).

4. Where the Fusion for Energy considers to apply a restriction, the risk to the rights and freedoms of the data subject shall be weighed, in particular, against the risk to the rights and freedoms of other data subjects and the risk of cancelling the effect of Fusion for Energy's investigations or procedures for example by destroying evidence. The risks to the rights and freedoms of other data subject concern primarily, but are not limited to, reputational risks and risks to the right of defence and the right to be heard.

### *Article 3*

- (a) where the exercise of those rights and obligations could be restricted by Commission services or other Union institutions, bodies, agencies and offices on the basis of other acts provided for in Article 25 of Regulation (EU) 2018/1725 or in accordance with Chapter IX of that Regulation or with the founding acts of other Union institutions, bodies, agencies and offices;

4. If the application of restriction is considered, a necessity and proportionality test shall be carried out based on the present rules. It shall be documented through an internal assessment note for accountability purposes on a case by case basis.
5. Restrictions shall be lifted as soon as the circumstances that justify them no longer apply. In particular, where it is considered that the exercise of the restricted right would no longer cancel the effect of the restriction imposed or adversely affect the rights or freedoms of other data subjects.
