

Pietro Barabaschi is currently the Head of the Broader Fusion Development Department in F4E. He is responsible for the European contributions to the three projects implemented in the frame of the Broader Approach Agreement between Euratom and the government of Japan: JT-60SA, IFMIF/EVEDA and IFERC.

Before joining F4E and up to early 2006 he was the deputy to the Project Leader and head of the Design Integration Division of the ITER International Team at the Garching Joint Work Site.

Soon after the university studies in Electrical Engineering he joined the JET Project, Culham UK, where he worked in the machine development department. In 1992 he joined the ITER Joint Central Team, San Diego Site, in the design integration division dealing with systems engineering and analysis.
