⁷ F4E(19)-AMC09 - Summary.

⁸ C(2019) 8129 final.

WHEREAS:

- (1) The Joint Undertaking shall have a distinct financial regulation based on the principles of the Framework Financial Regulation, which may depart from the latter where the specific operating needs of the Joint Undertaking so require and subject to prior consultation with the Commission;
- (2) As the Joint Undertaking's Governing Board considers that the changes introduced by the Framework Financial Regulation do not affect the Joint Undertaking's existing derogations and given the recognised continued operational needs of the Joint Undertaking, such derogations shall be maintained;
- (3) In order to allow the Joint Undertaking to effectively use external assigned revenue from the ITER Organization and the members of the Joint Undertaking for its intended purpose, the related commitment appropriations shall by way of derogation from the Framework Financial Regulation become available to the Joint Undertaking when established instead of upon receipt;
- (4) With a view to the nature of the ITER Project and for reasons of efficiency, the Joint Undertaking shall programme the actions in fulfillment of its tasks based on a project plan and an annual work programme foreseen in its Statutes, without an additional overlapping multi-annual work programme that may constitute a financing decision foreseen in the Framework Financial Regulation;
- (5) The in-kind contributions the Joint Undertaking shall provide to the ITER Project often require long-term research and development, design and prototyping input which can only be obtained through an enduring and stable cooperation between the Joint Undertaking and its beneficiaries implemented through framework partnership agreements which exceed, by way of a broad derogation, the usual four year limitation, on the understanding that competition is regularly re-opened where possible.

HAS ADOPTED THIS DECISION:

Article 1

2. The budget of the Joint Undertaking shall contain the following:
 - (a) non-differentiated appropriations;
 - (b) where justified by operational needs, differentiated appropriations, which consist of commitment appropriations and payment appropriations.

 6. Payment appropriations shall cover payments made to honour the legal commitments entered into in the financial year or preceding financial years.
 7. Paragraphs 3 and 5 of this Article shall not prevent appropriations being committed globally or budgetary commitments being made in annual instalments as respectively provided for in Article 74(1)(b) and in Article 74(2).

Article 7

Contribution agreements, grant agreements and financial framework partnerships

1. Contribution agreements and grant agreements may be exceptionally concluded between the Commission and the Joint Undertaking provided that the following conditions are met:
 - (a) the constituent act of the Joint Undertaking expressly provides for such possibility;
 - (b) the conclusion of such an agreement is duly justified by the special nature of the action and specific expertise of the Joint Undertaking;
 - (c) the tasks to be implemented by the Joint Undertaking under the agreement satisfy the following criteria:
 - (i) fall within the scope of the Joint Undertaking's objectives and the tasks are compatible with the Joint Undertaking's mandate as set out in the constituent act;
 - (ii) the tasks do not form part of the tasks assigned to the Joint Undertaking in the constituent act and financed by the annual contribution granted to it by the Union.
2. Where contribution agreements and grant agreements referred in paragraph 1 and service-level agreements are concluded for services offered by the Joint Undertaking to the Commission, the Commission may establish a financial framework partnership agreement with the Joint Undertaking in line with Article 130 of Regulation (EU, Euratom) 2018/1046.
3. The choice by the Commission of the Joint Undertaking shall take due account of the cost efficiency of entrusting those tasks.
4. Where the Commission exceptionally signs a contribution agreement with the Joint Undertaking, the rules applicable to indirect management laid down in Titles V and VI of Regulation (EU, Euratom) 2018/1046 shall apply to the Joint Undertaking in respect of funds allocated to that agreement and Articles 105 and 106 of this Regulation shall not apply.

5. The tasks referred to under paragraph 1 should be included in the single programming document of the Joint Undertaking, referred to in Article 32, for information purposes only. Information on the agreements referred to under paragraph 2 shall be included in the consolidated annual activity report referred to in Article 48.
6. The authorising officer shall inform the Governing Board before signing any agreement referred to in paragraph 2.

Article 8

Specific rules on the principles of unity and budgetary accuracy

1. All revenue and expenditure shall be booked to a budget line in the budget of the Joint Undertaking.
2. No expenditure may be committed or authorised in excess of the appropriations authorised by the budget of the Joint Undertaking.
3. An appropriation may be entered in the budget of the Joint Undertaking only if it is for an item of expenditure considered necessary.
4. Interest generated by pre-financing payments made from the budget of the Joint Undertaking shall not be due to the Joint Undertaking except as otherwise provided in the contribution agreements referred to in Article 7.

CHAPTER 2
Principle of annuality

Article 9

Definition

The appropriations entered in the budget of the Joint Undertaking shall be authorised for a financial year that shall run from 1 January to 31 December.

Article 10

Budgetary accounting for revenue and appropriations

1. The Joint Undertaking's revenue of a financial year, as referred to in Article 6, shall be entered in the accounts for that financial year on the basis of the amounts collected during that financial year.
2. The revenue of the Joint Undertaking shall give rise to an equivalent amount of payment appropriations.
3. Commitments shall be entered in the accounts for a financial year on the basis of the legal commitments entered into up to 31 December of that year. However, the global budgetary commitments referred to in Article 74(1)(b) shall be entered in the accounts for a financial year on the basis of the budgetary commitments up to 31 December of that year.

4. Payments shall be entered in the accounts for a financial year on the basis of the payments made by the accounting officer by 31 December of that year.
5. Where the constituent act provides that clearly defined tasks are financed separately or where the Joint Undertaking implements agreements concluded in accordance with Article 7, the Joint Undertaking shall have specific budget lines on the revenue and expenditure operations. The Joint Undertaking shall clearly identify each group of tasks in its resource estimates plan included in the single programming document drawn up pursuant to Article 32.

Article 11

Commitment of appropriations

1. The appropriations entered in the budget of the Joint Undertaking may be committed with effect from 1 January, once the budget of the Joint Undertaking has been definitively adopted.
2. As of 15 October of the financial year, routine administrative expenditure may be committed in advance against the appropriations provided for the following financial year, provided that the expenditure has been approved in the last budget of the Joint Undertaking duly adopted, and only up to a maximum of one quarter of the appropriations decided upon by the Governing Board on the corresponding budget line for the current financial year.

Article 12

Cancellation and carry-over of appropriations

1. Appropriations which have not been used by the end of the financial year for which they were entered shall be cancelled, unless they are carried over in accordance with paragraphs 2 and 4. Given the needs of the Joint Undertaking, the cancelled appropriations may be entered in the estimate of revenue and expenditure of the following financial years, in accordance with Article 32.
2. The following appropriations may be carried over by a decision taken pursuant to paragraph 3, but only to the following financial year:
 - (a) commitment appropriations and non-differentiated appropriations, for which most of the preparatory stages of the commitment procedure have been completed by 31 December of the financial year. Such appropriations may be committed up to 31 March of the following financial year, with the exception of non-differentiated appropriations related to building projects which may be committed up to 31 December of the following financial year;
 - (b) payment appropriations which are needed to cover existing commitments or commitments linked to commitment appropriations carried over, where the payment appropriations provided for in the relevant budget lines for the following financial year are insufficient.

With regard to point (b) of the first subparagraph, the Joint Undertaking shall first use the appropriations authorised for the current financial year and shall not use the appropriations carried over until the former are exhausted.

3. The Governing Board or, where the constituent act allows it, a body delegated by the Governing Board, shall take its decision on carry-overs as referred to in paragraph 2 by 15 February of the following financial year.
4. Appropriations shall be automatically carried over in respect of:
 - (a) appropriations corresponding to internal assigned revenue. Such appropriations may be carried over only to the following financial year and may be committed up to 31 December of that year, with the exception of the internal assigned revenue from lettings and the sale of buildings and land referred to in Article 20(3)(e) which may be carried over until it is fully used;
 - (b) appropriations corresponding to external assigned revenue. Such appropriations shall be fully used by the time all the operations relating to the programme or action to which they are assigned have been carried out or they may be carried over and used for the succeeding programme or action.
5. Appropriations for staff expenditure shall not be carried over. For the purposes of this Article, staff expenditure comprises remuneration and allowances for the staff of the Joint Undertaking who are subject to the Staff Regulations.
6. Non-differentiated appropriations legally committed by the end of the financial year shall be paid until the end of the following financial year.

Article 13

Detailed provisions on cancellation and carry-over of appropriations

1. The commitment appropriations and the non-differentiated appropriations referred to in Article 12(2)(a) may be carried over only if the commitments could not be made before 31 December of the financial year for reasons not attributable to the authorising officer and if the preparatory stages are sufficiently advanced to make it reasonable to expect that the commitment will be made by no later than 31 March of the following financial year, or, in relation to building projects, by 31 December of the following financial year.
2. Appropriations carried over in accordance with Article 12(2)(a) which have not been committed by 31 March of the following financial year or up to 31 December of the following year for amounts relating to building projects shall be automatically cancelled. Given the needs of the Joint Undertaking, the cancelled appropriations may be entered in the estimate of revenue and expenditure of the following financial years, in accordance with Article 32.
3. Appropriations carried over which have been cancelled shall be identified in the accounts.

Article 14

Decommitment of appropriations

1. Where budgetary commitments are decommitted in any financial year after the year in which they were made as a result of total or partial non-implementation of the actions for which they were earmarked, the appropriations corresponding to such decommitments shall be cancelled. Given the needs of the Joint Undertaking, the

cancelled appropriations may be entered in the estimate of revenue and expenditure of the following financial years, in accordance with Article 32.

2. This Article shall not apply to external assigned revenue referred to in Article 20(2).

Article 15

Rules applicable in the event of late adoption of the budget of the Joint Undertaking

1. If the budget of the Joint Undertaking has not been definitively adopted at the beginning of the financial year, the rules set out in paragraphs 2 to 5 shall apply.
2. Commitments may be made per chapter up to a maximum of one quarter of the total appropriations authorised in the relevant chapter of the budget of the Joint Undertaking for the preceding financial year plus one-twelfth for each month that has elapsed.

The limit of the appropriations provided for in the statement of estimates of revenue and expenditure shall not be exceeded.

Payments may be made monthly per chapter up to a maximum of one-twelfth of the appropriations authorised in the relevant chapter of the budget of the Joint Undertaking for the preceding financial year. However, that sum shall not exceed one-twelfth of the appropriations provided for in the same chapter of the statement of estimates of revenue and expenditure.

3. The appropriations authorised in the relevant chapter of the budget of the Joint Undertaking for the preceding financial year, as referred to in paragraph 2, shall be understood as referring to the appropriations voted in the budget of the Joint Undertaking, including by amending budgets, and after adjustment for the transfers made during that financial year.
4. If the continuity of action and management needs of the Joint Undertaking so require, the Governing Board may, at the request of the Director, authorise expenditure in excess of one provisional twelfth but not exceeding a total of four provisional twelfths, except in duly justified cases, both for commitments and for payments over and above those automatically made available in accordance with paragraph 2.

The additional twelfths shall be authorised in full and shall not be divisible.

5. If, for a given chapter, the authorisation of four provisional twelfths granted in accordance with paragraph 4 is not sufficient to cover the expenditure necessary to avoid a break in continuity of action by the Joint Undertaking in the area covered by the chapter in question, authorisation may exceptionally be given by the Governing Board, at the request of the Director, to exceed the amount of the appropriations entered in the corresponding chapter of the budget of the Joint Undertaking for the preceding financial year. However, the overall total of the appropriations available in the budget of the Joint Undertaking of the preceding financial year or in the statement of estimates of revenue and expenditure, as proposed, shall in no circumstances be exceeded.

CHAPTER 3

Principle of equilibrium

Article 16

Definition and scope

1. Revenue and payment appropriations shall be in balance.
2. Commitment appropriations may not exceed the amount of the Union contribution, plus own revenue and any other revenue referred to in Article 6.
3. Where revenue is constituted by fees and charges in addition to the Union contribution, fees should be set at a level such as to avoid a significant accumulation of surplus. Where a significant positive or negative budget result, within the meaning of Article 99, becomes recurrent, the level of the fees and charges shall be revised.
4. Notwithstanding the principle of equilibrium, the Joint Undertaking may, in exceptional circumstances and following the approval of the Governing Board, grant or raise loans within the framework of the budget, in accordance with Article 4 and Article 6(3)(m) of the Statutes and point 4 of Annex III of the Statutes.
5. The Union contribution to the Joint Undertaking shall constitute for the budget of the Joint Undertaking a balancing contribution and may be divided into a number of payments.
6. The Joint Undertaking shall implement rigorous cash management, taking due account of assigned revenue, in order to ensure that its cash balances are limited to duly justified requirements. With its payment requests it shall submit detailed and updated forecasts on its real cash requirements throughout the year, including information on assigned revenue.

Article 17

Balance from financial year

1. If the budget result within the meaning of Article 99 is positive, it shall be repaid to the Commission up to the amount of the contribution paid during the year. The part of the budget result exceeding the amount of the Union contribution paid during the year shall be entered in the budget of the Joint Undertaking for the following financial year as revenue.

The first subparagraph shall also apply when the revenue of the Joint Undertaking is constituted by fees and charges in addition to the Union contribution.

The difference between the contribution entered in the budget and that actually paid to the Joint Undertaking shall be cancelled.

2. In exceptional cases, where the constituent act provides that the revenues arising from fees and charges are assigned to particular items of expenditure, the Joint Undertaking may carry over the balance of fees and charges as assigned revenue for the activities related to the provision of the services for which the fees are due.
3. If the budget result within the meaning of Article 99 is negative, it shall be entered in the budget of the Joint Undertaking for the following financial year as payment

appropriations or, where appropriate, offset against positive budget result of the Joint Undertaking in the following financial years.

Where the fees and charges are assigned revenue the negative result related to this assigned revenue can be offset against the accumulated surplus from previous years, if available.

4. The revenue or payment appropriations shall be entered in the budget of the Joint Undertaking during the budgetary procedure using the letter of amendment procedure set out in Article 42 of Regulation (EU, Euratom) 2018/1046 or, while implementation of the budget of the Joint Undertaking is under way, by means of an amending budget.

An estimate of the budget result from year N-1 will be provided by the Joint Undertaking no later than 31 January of the year N. This information shall be duly taken into account by the Commission when assessing the financial needs of the Joint Undertaking for the year N+1.

CHAPTER 4

Principle of unit of account

Article 18

Use of euro

1. The budget shall be drawn up and implemented in euro and the accounts shall be presented in euro. However, for the cash-flow purposes referred to in Article 98, the accounting officer and, in the case of imprest accounts, the imprest administrators, and, for the needs of the administrative management of the Joint Undertaking, the authorising officer responsible, shall be authorised to carry out operations in other currencies.
2. Without prejudice to specific provisions laid down in sector-specific rules, or in specific contracts, grant agreements, contribution agreements and financing agreements, conversion by the authorising officer responsible shall be made using the daily euro exchange rate published in the C series of the Official Journal of the European Union of the day on which the payment order or recovery order is drawn up by the authorising department.

If no such daily rate is published, the authorising officer responsible shall use the one referred to in paragraph 3.

3. For the purposes of the accounts provided for in Articles 82, 83 and 84 of Regulation (EU, Euratom) 2018/1046 conversion between the euro and another currency shall be made using the monthly accounting exchange rate of the euro. That accounting exchange rate shall be established by the accounting officer of the Commission by means of any source of information regarded as reliable, based on the exchange rate on the penultimate working day of the month preceding that for which the rate is established.
4. Currency conversion operations shall be carried out in such a way as to avoid having a significant impact on the level of the Union co-financing or a detrimental impact on the budget. Where appropriate, the rate of conversion between the euro and other

currencies may be calculated using the average of the daily exchange rate in a given period.

CHAPTER 5

Principle of universality

Article 19

Scope

Without prejudice to Article 20, total revenue shall cover total payment appropriations. Without prejudice to Article 24, all revenue and expenditure shall be entered in full without any adjustment against each other.

Article 20

Assigned revenue

1. External assigned revenue and internal assigned revenue shall be used to finance specific items of expenditure.
2. The following shall constitute external assigned revenue:
 - (a) financial contributions from Members of the Joint Undertaking and third countries, including in both cases their public agencies, entities or natural persons, to certain activities of the Joint Undertaking insofar as this is provided for in the agreement concluded between the Joint Undertaking and its Members, third countries or the public agencies, entities or natural persons in question;
 - (b) financial contributions from international organisations;
 - (c) revenue earmarked for a specific purpose, such as income from foundations, subsidies, gifts and bequests;
 - (d) financial contributions, not covered by point (a), to the Joint Undertaking's activities from third countries or non-Union bodies;
 - (e) revenue from agreements referred to in Article 7;
 - (f) internal assigned revenue referred to in paragraph 3, to the extent that it is ancillary to the other revenue referred to in points (a) to (c) of this paragraph;
 - (g) revenue from fees and charges referred to in Article 6(3)(b).
3. The following shall constitute internal assigned revenue:
 - (a) revenue from third parties in respect of goods, services or work supplied at their request, with the exception of fees and charges referred to in Article 6(3)(b);
 - (b) revenue arising from the repayment, in accordance with Article 66, of amounts wrongly paid;
 - (c) proceeds from the supply of goods, services and works for Union institutions or other Union bodies;

- (d) insurance payments received;
 - (e) revenue from lettings and from the sale of buildings and land;
 - (f) revenue arising from subsequent reimbursement of taxes pursuant to Article 27(3)(b) of Regulation (EU, Euratom) 2018/1046.
4. Assigned revenue shall be carried over and transferred in accordance with the provisions of Article 12(4)(a) and (b) and Article 27.
 5. Without prejudice to point (f) of the second paragraph, the constituent act may also assign the revenue for which it provides to specific items of expenditure. Unless specified otherwise in the constituent act, such revenue shall constitute internal assigned revenue.
 6. All items of revenue within the meaning of points (a) to (c) of paragraph 2 and points (a) and (c) of paragraph 3 shall cover all direct or indirect expenditure incurred by the activity or purpose in question.
 7. The budget of the Joint Undertaking shall include lines to accommodate external assigned revenue and internal assigned revenue and wherever possible shall indicate the amount.

Assigned revenue may be included in the estimate of revenue and expenditure only for the amounts that are certain at the date of the establishment of the estimate.

Article 21

Structure to accommodate assigned revenue and provision of corresponding appropriations

1. The structure to accommodate assigned revenue in the budget of the Joint Undertaking shall comprise:
 - (a) in the statement of revenue, a budget line to receive the revenue;
 - (b) in the statement of expenditure, the budget remarks, including general remarks, showing which budget lines may receive the appropriations corresponding to the assigned revenue which are made available.

In the case referred to in point (a) of the first subparagraph, a token entry '*pro memoria*' shall be made and the estimated revenue shall be shown for information in the remarks.

2. The appropriations corresponding to assigned revenue shall be made available automatically, both as commitment appropriations and as payment appropriations, when the revenue has been received by the Joint Undertaking.
3. By way of exception from paragraph 2, where assigned revenue stems from the implementation of a contribution agreement concluded pursuant to Article 7, the total amount of commitment appropriations may be made available upon entry into effect of the agreement concerned provided that the constituent act with regard to the funds being delegated to the Joint Undertaking provides for the possibility to make use of annual instalments.
- 3bis. By way of exception from paragraph 2, where assigned revenue stems from financial contributions from its members and the ITER Organisation, the total amount of commitment appropriations may be made available upon entry into effect of the

In this case, all details of the Joint Undertaking's entitlement shall be registered. The accounting officer shall keep a list of all debit notes and provide the number of the debit notes and the global amount in the Joint Undertaking's report on budgetary and financial management.

Where the Joint Undertaking uses a separate invoicing system, the accounting officer shall regularly, and at least on a monthly basis, enter the accumulated sum of fees and charges received into the accounts.

The Joint Undertaking shall provide services by virtue of the tasks entrusted to it only after the corresponding fee or charge has been paid in its entirety. In cases where service has been provided without prior payment of the corresponding charge or fee, Articles 63 to 70 shall apply.

CHAPTER 6

Financing decisions

1. A budgetary commitment shall be preceded by a financing decision. Administrative appropriations may be implemented without a prior financing decision.
2. The annual work programme of the Joint Undertaking included in the single programming document referred to in Article 32 shall be equivalent to a financing decision for the activities it covers, provided that the elements set out in Article 32(3) are clearly identified.

1. Every item of expenditure shall be committed, validated, authorised and paid.

At the end of the periods referred to in Article 75, the unused balance of budgetary commitments shall be decommitted.

When executing operations, the authorising officer shall ensure that the expenditure complies with the Treaties, the budget, this Regulation and other acts adopted pursuant to the Treaties as well as with the principle of sound financial management.
2. The authorising officer shall make a budgetary commitment before entering into a legal commitment with third parties.

The first subparagraph shall not apply to legal commitments concluded in fulfilment of its tasks under Article 1(2) of the constituent act in cases of extreme urgency brought about by events not attributable to the Joint Undertaking when prior booking of the individual budgetary commitment would cause disproportionate additional costs. Costs are to be deemed disproportionate when the difference between entering into a legal commitment with third parties before or after carrying out the budgetary commitment would amount to at least 10% and a minimum of EUR 25,000.

This estimation shall be duly substantiated and recorded without any delay after entering into a legal commitment. The booking of the budgetary commitment shall be done without delay after entering into a legal commitment with third parties.
3. The authorising officer shall validate expenditure by accepting that an item of expenditure is charged to the budget of the Joint Undertaking, after having checked the supporting documents attesting the creditor's entitlement as per the conditions set

in the legal commitment when there is a legal commitment. For this purpose, the authorising officer responsible shall:

- (a) verify the existence of the creditor's entitlement;
- (b) determine or verify the reality and the amount of the claim through the endorsement "certified correct";
- (c) verify the conditions according to which payment is due.

Notwithstanding the first subparagraph, the validation of expenditure shall also apply to interim or final reports not associated with a request for payment in which case the impact on the accounting system will be limited to the general accounts.

4. The validation decision shall be expressed through electronically secured signature in accordance with Article 146 of Regulation (EU, Euratom) 2018/1046 by the authorising officer or by a technically competent member of staff, duly empowered by a formal decision of the authorising officer or, exceptionally, for paper workflow, take the form of a stamp incorporating that signature.

With the endorsement "certified correct", the authorising officer or a technically competent member of staff, duly empowered by the authorising officer, shall certify that:

- (a) for the pre-financing: the conditions required in the legal commitment for the payment of the pre-financing are met;
- (b) for interim and balance payments in contracts: the services provided for in the contract have been properly provided, the supplies properly delivered or that the work has been properly carried out;
- (c) for interim and balance payments in grants: the action or work programme carried out by the beneficiary is in all respects in compliance with the grant agreement including, where applicable that the costs declared by the beneficiary are eligible.

In the case referred to in point (c) of the second subparagraph, cost estimates shall not be deemed to comply with the eligibility conditions set out in Article 186(3) of Regulation (EU, Euratom) 2018/1046. The same principle shall also apply for interim and final reports not associated to a payment request.

5. In order to authorise the expenditure, the authorising officer shall, after having verified that the appropriations are available, issue a payment order to instruct the accounting officer to pay an amount of expenditure that has been previously validated.
6. Where periodic payments are made with regard to services rendered, including rental services, or goods delivered, the authorising officer may, subject to that officer's risk analysis, order the application of a direct debit system from an imprest account.

Article 74

Types of budgetary commitments

1. Budgetary commitments shall fall into one of the following three categories:
 - (a) individual: when the recipient and the amount of the expenditure are known;

- (b) global: when at least one of the elements necessary to identify the individual commitment is still not known;
 - (c) provisional: to cover routine administrative expenditure where either the amount or the final payees are not definitively known.
2. Budgetary commitments for actions extending over more than one financial year may be broken down over several years into annual instalments only where the constituent act so provides or where they relate to administrative expenditure.
 3. A global budgetary commitment shall be made on the basis of a financing decision.
The global budgetary commitment shall be made at the latest before the decision on the recipients and amounts is taken and, where implementation of the appropriations concerned involves the adoption of a work programme, at the earliest after that programme has been adopted.
 4. The global budgetary commitment shall be implemented by the conclusion of one or more legal commitments.
 5. Each individual legal commitment adopted following a global budgetary commitment shall, prior to signature, be registered by the authorising officer in the budgetary accounts and booked to the global budgetary commitment.
 6. Provisional budgetary commitments shall be implemented by entering into one or more legal commitments giving rise to an entitlement to subsequent payments. However, in cases relating to expenditure on staff management, they may be implemented directly by payments.

Article 75

Time limits for commitments

1. Without prejudice to Articles 73(2) and 109(2) legal commitments relating to individual or provisional budgetary commitments shall be entered into by 31 December of year n, year n being the one in which the budgetary commitment was made.
2. Global budgetary commitments shall cover the total cost of the corresponding legal commitments concluded up to 31 December of year n+1.
3. At the end of the periods referred to in paragraphs 1 and 2, the unused balance of such budgetary commitments shall be decommitted by the authorising officer.
4. The individual and provisional budgetary commitments for actions extending over more than one financial year shall, except in the case of staff expenditure, have a final date for implementation set, in accordance with the conditions in the legal commitments to which they refer, and taking into account the principle of sound financial management.
5. Any parts of budgetary commitments that have not been executed by payments within six months after the final date for implementation shall be decommitted in accordance with Article 14.
6. The amount of a budgetary commitment for which no payment within the meaning of Article 76 has been made within two years of the signing of the legal commitment shall be decommitted, except where that amount relates to a case under litigation

before judicial courts or arbitral bodies or where there are special provisions laid down in sector-specific rules.

Article 76

Types of payments

1. Payment of expenditure shall be made by the accounting officer within the limits of the funds available.
2. Payment shall be made on production of proof that the relevant action is in accordance with the contract, the agreement or the constituent act and shall cover one or more of the following operations:
 - (a) payment of the entire amount due;
 - (b) payment of the amount due in any of the following ways:
 - (i) pre-financing providing a float, which may be divided into a number of payments in accordance with the principle of sound financial management; such pre-financing shall be paid either on the basis of the contract, the grant agreement or the constituent act, or on the basis of supporting documents which make it possible to check that the terms of the contract or agreement in question are complied with;
 - (ii) one or more interim payments as a counterpart of a partial execution of the action or performance of the contract. It may clear pre-financing in whole or in part, without prejudice to the provisions of the constituent act;
 - (iii) payment of the balance of the amounts due where the action or contract is completely executed.

The payment of the balance shall clear all preceding expenditure. A recovery order shall be issued to recover unused amounts.

3. A distinction shall be made in budgetary accounting between the different types of payment referred to in paragraph 2 at the time each payment is made.
4. The accounting rules referred to in Article 51 shall include the rules for clearing the pre-financing in the accounts and for the acknowledgment of the eligibility of costs.
5. Pre-financing payments shall be cleared regularly by the authorising officer responsible, according to the economic nature of the project and, at the latest, at the end of the project. The clearing shall be performed on the basis of information on costs incurred or confirmation of the conditions for payment being fulfilled in accordance with Article 115 of Regulation (EU, Euratom) 2018/1046 as validated by the authorising officer in accordance with Article 73(3) of this Regulation.

For grant agreements or contracts above EUR 5 000 000, the authorising officer shall obtain at each year-end at least the information needed to calculate a reasonable estimate of the costs. That information shall not be used for clearing the pre-financing, but may be used by the authorising officer and the accounting officer to comply with Article 82(2) of Regulation (EU, Euratom) 2018/1046.

For the purposes of the second subparagraph, appropriate provisions shall be included in the legal commitments entered into.

Article 77

Time limits for payments

The payment of expenditure shall be carried out within the time limits specified in, and in accordance with Article 116 of Regulation (EU, Euratom) 2018/1046.

In addition to the entities referred to in Article 165(2) of Regulation (EU, Euratom) 2018/1046, the Joint Undertaking may conduct joint procurements also with the ITER Organisation, the other Domestic Agencies and Japan in fulfilment of its tasks listed in Article 1(2) of the constituent act. In the case of joint procurement with these entities and when the fourth subparagraph of Article 165(2) of Regulation 2018/1046 is applicable, the requirement of equivalence set out therein shall be considered to be met if the rules of the other entity comply with the procurement principles and in particular the ones set out in Article 160(1) of Regulation (EU, Euratom) 2018/1046.

Article 89d

Negotiated procedure without publication of a contract notice, on the basis of a single tender

By way of derogation from Article 163(2), to point 6.6, point 13 and points 14.2, 14.3 and 14.4 of Annex I of Regulation (EU, Euratom) 2018/1046, contracts for supplies and services, the result of which is intended to be used for the purposes of research, experiment, study or development within the context of the implementation of the Joint Undertaking's operational tasks referred to in Article 1(2) of the constituent act, where the estimated value is below the thresholds referred to in Article 175(1) of Regulation (EU, Euratom) 2018/1046, may be awarded by a negotiated procedure following the arrangements on negotiation set out in Article 164(4) of Regulation (EU, Euratom) 2018/1046. Article 163(2) and points 6.1 and 6.2 of Annex I of Regulation (EU, Euratom) 2018/1046 shall not apply to such negotiated procedures.

Article 89e

Negotiated procedure without prior publication for additional deliveries

By way of derogation to point 11.1(f)(i) of Annex I of Regulation (EU, Euratom) 2018/1046, the Joint Undertaking may exceptionally conclude such contracts exceeding the maximal duration of three years.

Such exceptional cases shall be justified by the specific nature of the subject matter of the contract, notably the time required for the production, testing, acceptance and installation of the supplies, their maintenance or warranty obligations linked to them.

Article 89f

Performance and modifications of the contract

1. Article 172 of Regulation (EU, Euratom) 2018/1046 shall not apply to the Joint Undertaking.
2. Performance of the contract shall not start before the contract is signed.
3. The Joint Undertaking may modify a contract or framework contract without a procurement procedure only in the cases provided for in paragraph 4 and provided the modification does not alter the subject matter of the contract or framework contract.
4. A contract, a framework contract or a specific contract under a framework contract may be modified without a new procurement procedure in the following cases:
 - (a) for additional works, supplies or services by the original contractor that have become necessary and that were not included in the initial procurement, where a change of contractor:
 - (i) cannot be made for economic or technical reasons linked to interchangeability or interoperability requirements with existing equipment, services or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the Joint Undertaking.

However, any increase in price shall not exceed 50% of the value of the original contract. Where several successive modifications are made, that

limitation shall apply to the value of each modification. Such consecutive modifications shall not be aimed at circumventing this Regulation.

- (b) where the following conditions are fulfilled:
 - (i) the need for modification has been brought about by circumstances which the Joint Undertaking, acting in a diligent manner, could not foresee; and
 - (ii) any increase in price does not exceed 50% of the initial contract value. Where several successive modifications are made, that limitation shall apply to the value of each modification. Such consecutive modifications shall not be aimed at circumventing this Regulation;
- (c) where the value of the modification is below the following thresholds:
 - (i) the thresholds referred to in Article 175(1) of Regulation (EU, Euratom) 2018/1046; and
 - (ii) 10% of the initial contract value for public service and supply contracts and works or service concession contracts and 15% of the initial contract value for public works contracts;
- (d) where modifications, irrespective of their value, are not substantial within the meaning of paragraph 5.

The initial contract value shall take into account price revisions and exercised options.

The net cumulative value of several successive modifications under point (c) of the first subparagraph of this paragraph shall not exceed any threshold referred to therein.

The Joint Undertaking shall apply the *ex post* publicity measures set out in Article 163 of Regulation (EU, Euratom) 2018/1046.

5. A modification of a contract or a framework agreement during its term shall be considered to be substantial within the meaning of point (d) of paragraph 4, where it renders the contract or the framework contract materially different in character from the one initially concluded. In any event, without prejudice to paragraph 4, a modification shall be considered to be substantial where one or more of the following conditions is met:

- (a) the modification introduces conditions which, had they been part of the initial procurement procedure, would have allowed for the admission of other candidates than those initially selected or for the acceptance of a tender other than that originally accepted or would have attracted additional participants in the procurement procedure;
- (b) the modification changes the economic balance of the contract or the framework contract in favour of the contractor in a manner which was not provided for in the initial contract or framework contract;

- (c) the modification extends the scope of the contract or framework contract considerably;
- (d) where a new contractor replaces the one to which the Joint Undertaking had initially awarded the contract, except in cases of an unequivocal review clause or option to this effect, or universal or partial succession into the position of the initial contractor.

Article 90

Procurement procedures

The Joint Undertaking may conclude a service-level agreement as referred to in paragraph 2 of Article 43 without having recourse to a public procurement procedure.

The Joint Undertaking may use joint procurement procedures with contracting authorities of the Host State to cover its administrative needs. In such case, Article 165 of Regulation (EU, Euratom) 2018/1046 shall apply.

Upon adoption by the Governing Board, the list and any modification thereof shall be published on the website of the Joint Undertaking.

3. Where the Joint Undertaking decides to award grants in accordance with paragraph 1, it shall address an invitation to submit a proposal to all organisations on the list.
