1. Why does F4E process my personal data? Whose data is processed?

The objective of the processing of personal data is to implement a series of H&S measures in order to prevent the spread of COVID-19 within the organisation and protect the health of staff members, externals, visitors and partners at large.

“Externals” mean all persons working for F4E at F4E premises whose relationship with F4E is not governed by the Staff Regulations / CEOS staff (eg. Temporary agency workers, contractors staff, SNEs, trainees, etc.) who have access to F4E premises at any of its locations, work on site, are in physical contact with F4E staff).

“Visitors” mean all persons who, not being staff members or Externals, need of a Visitor badge to access F4E premises.

The following H&S measures involving the process of personal data have been implemented:

Temperature checks

In F4E Barcelona headquarters, security guards carry out a temperature check to those who access the building. Security guards’ role is to control that nobody with a body temperature over 37 degrees access the premises. If the concerned person is a staff member or external, they will be requested to return home and contact the F4E Medical Advisor.

Access control to visitors

In order to allow traceability of all the persons accessing the F4E premises in Barcelona, Cadarache and Garching and monitor their close contacts, visitors will provide certain personal information to F4E before accessing its premises. (See section 4 for more details).

COVID-19 tests
In certain situations, staff members or externals will be requested by F4E or a third party to take a COVID-19 test. In particular, tests will be carried out in the following situations:

a) Missions

In the event the destination country requests a negative COVID-19 test result undertaken before entering its territory, the concerned F4E staff member will undergo a test and carry the mission only if the result is negative. If the result is positive, the mission will not take place and the concerned staff member will inform the F4E Medical Advisor.

b) Shuttle

Before taking the F4E shuttle between Barcelona and Cadarache, passengers will undergo an antigen test as a precautionary H&S measure. In the event the result is positive, the concerned staff member will be asked to return home and inform the F4E Medical Advisor.

c) Request by the F4E Medical Advisor or H&S Coordinator

In certain situations, the F4E Medical Advisor or the H&S Coordinator might request the performance of a COVID-19 test before a work-related activity or meeting. In case the result is positive, the concerned F4E staff member or external will return home and inform the F4E Medical Advisor.
