1. Why does F4E process my personal data? Whose data is processed?

The objective of the processing of personal data is to identify those staff members who are vulnerable to COVID-19 and provide them with improved working conditions by reinforcing H&S measures.

Staff members with one of the conditions defined in the guidelines for Group C staff members (F4E_D_2KYLD5) are requested to communicate with the F4E Medical Advisor for their inclusion in the Group C. The Medical Advisor will then provide the concerned staff members with a series of H&S recommendations and rules that high-risk staff must follow.

The list of Group C staff members and their conditions is only accessible by the F4E Medical Advisor. However, staff members in Group C are requested to inform their line manager of their inclusion in such group without disclosing any medical data. The line manager will take into account the vulnerability of the concerned staff member when establishing working arrangements within their units / teams.

Staff members in Group C will need a medical assessment with the F4E Medical Advisor before working on-site or going on mission. In the event the Medical Advisor advises against working on-site but the concerned staff member still wishes to access the premises or go on mission, the F4E Medical Advisor will inform of such situation to the line manager, the H&S Coordinator and the Head of Site, who will liaise to provide the concerned staff member with reinforced H&S measures and working arrangements.

The general principles of necessity and proportionality still apply when F4E exercises its duty of care for staff. F4E is accountable for necessity and proportionality and limits its processing to what is necessary.
