Director-General

Euratom Supply Agency

As CEO of the [Euratom Supply Agency](#), I am tasked with steering its work to achieve the security of supply of nuclear material and fuel for EU users, for power and non power uses. The Agency exercises its right of option on EU produced nuclear materials and has an exclusive right to conclude contracts for supply of nuclear materials.

The areas of ESA work include:

- Enforcement of the common supply policy for ores, source material and special fissile material
- Monitoring of the nuclear market,
- Monitoring of and contributing to the secure supply of medical radioisotopes.

As authorising officer, I am accountable to the Budgetary and Discharge Authority.
