1. Why does F4E process my personal data? Whose data is processed?

The data processing concerns the complementary health insurance for F4E staff and their JSIS family members. The purpose of this procedure is to provide complementary health insurance services to eligible F4E staff and related family members as a complement to the Commission Joint Sickness Insurance Scheme (JSIS).

2. What is the justification for the processing?

Processing of your data is necessary for the performance of F4E tasks on the basis of the F4E founding instrument and/or other legal instrument adopted on the basis thereof or for compliance with a specific legal obligation F4E is subject to.

It is based on:

Statutes annexed to the Council Decision (Euratom) No 198/2007 “establishing the European Joint Undertaking for ITER and the Development of Fusion Energy and conferring advantages upon it”, as last amended on 10 February 2015, in particular Article 10 thereof;

In addition, the subscription to the complementary health insurance is done on a voluntary basis; the staff member and related family members shall fill in and
sign the contractor’s health insurance application form, which contains a clause by which the affiliated gives the consent to the contractor to process their personal and medical data for the purpose of the contract.

3. **Which data is F4E processing?**

F4E processes only administrative data in relation with the affiliation to the complementary health insurance for both F4E staff members and their family members, as follows:

- Submission of the affiliation request with the JSIS certificate: name and surname, staff number, date of birth, type of affiliation, start date of affiliation and if JSIS affiliated family members: name and surname, date of birth and type of affiliation;

- Validation of the affiliation request: name and surname, type of affiliation, relation to the staff member if applicable, start date of the affiliation;

- Validation of the contractor’s monthly invoices: names and surnames, number of affiliated family members under the policy holder (F4E staff member), type of policy (primary or complementary), policy number and total monthly affiliation fees to be paid by F4E;

- Follow-up master table for the purpose of monitoring the number of affiliations/cancellations/transfers and as basis for the verification/validation of the monthly invoices. This table includes the following data: type of policy (primary or complementary), start dates, birth dates, ages, family relationship, location of JSIS affiliation, staff entitlements which have an impact on the health affiliation (child dependence, family members residence, etc.).

No health data shall be handled by F4E. F4E does not have access to the medical data of the F4E affiliated staff and their affiliated family members. F4E is only involved in the processing of administrative data (see above) for the purpose of registering/transferring/cancelling F4E staff and their family members’ affiliation to the health insurance and verifying/validating the monthly invoices.
