### Risk Manager

Fusion for Energy (F4E) is hiring a **Risk Manager**, who will play a key role in supporting fusion, the power of the Sun, into a future sustainable energy source.

Reference	Grade	Location	Closing date
F4E/TA/AD8/2025/0284	Temporary Agent AD8	Barcelona, Spain <sup>i</sup>	16/06/2025 - 11:59 (CET)

#### Is this job for you?

If you are a passionate professional and want to make a difference to the future of sustainable energy and would like to work on a multi-billion euro first-of-a-kind development project, we have the perfect opportunity for you! Apply to become a Risk Manager within our Projects Control, Supply Chain and Finance Department of 'Fusion for Energy'.

As a member of the Project Management Office & Budget Unit and within an integrated team constituted of F4E and ITER Organization staff, the Risk Manager will be playing an active role in ensuring that risks are managed appropriately at all levels within F4E.

The ideal candidate will possess extensive experience in project and risk management activities, a strategic and change management mindset, strong analytical and organizational skills, and proven expertise in a coordination role within a relevant area of responsibility.

Fusion for Energy (F4E) is managing Europe's contribution to ITER, the biggest fusion experiment, and is contributing to several other major projects in the same domain. The fusion landscape is changing fast and F4E as a key European player has just entered in a new organisation.

#### Why F4E?

Fusion for Energy (F4E) is the European Union's organisation for ITER and the Development of Fusion Energy. We are working with industry and laboratories to deliver cutting-edge components to the ITER international fusion energy project. In parallel, we are working on other major projects in the same domain, including the JT-60SA experiment with Japan, a new material testing facility (DONES), and, in the long-term, preparing for the next generation of fusion devices.

F4E is headquartered in Barcelona with offices in Cadarache (France) and Garching (Germany). To deliver the European contribution to ITER, face the fusion challenges, and manage more than 400 professionals, F4E is moving towards a more diverse, flexible, and result-oriented organisation. Its renewed vision is focussed on (1) successful delivery of projects, (2) developing fusion talent and knowledge base for the development of commercially viable fusion power plants in Europe and (3) paving the way for a transition from research to a competitive European industrial fusion sector.

## **We are committed to Diversity & Inclusion**

---

Fusion for Energy is an equal opportunities employer and takes care to avoid any form of discrimination. As part of its commitment to diversity, gender equality and geographical distribution, F4E strongly encourages applications from female candidates and applies a policy of equal opportunities. It does not discriminate against anyone on grounds of gender, race, colour, ethnic or social origin, genetic features, religion or belief, political or any other opinion, membership of a national minority, property, birth, disability or sexual orientation. Fusion for Energy offers measures to reconcile professional and private life and will provide reasonable adjustments at the workplace for persons with disabilities.

## **Your key areas of impact**

---

The Projects Control, Supply Chain and Finance provides governance and oversight of programmes as well as matrixed support encompassing procurement, supply chain management, finance, and legal services. The Department is composed of around 96 staff.

As a member of the Project Management Office & Budget Unit, the Risk Manager will report to the Head of Unit. The Risk Manager will be responsible to ensure that risks are managed appropriately at all levels. They will define and provide guidance on the risk methodology to be followed, make an overall analysis of the risk registers and ensure the follow-up of the agreed mitigation plans. The Risk Manager will also liaise with ITER IO on risk management activities and be an assurance provider in the Internal Control System.

Their role and responsibility include but are not limited to:

- Promote a strong risk culture and engagement within the organization. Introduce risk as an inherent aspect of F4E's decision making process, and drive increased maturity on risk management activities, through promotion of the Risk Champions Network, communication strategies and regular progress reporting to stakeholders;
- Define and maintain risk management strategies, methodology and documentation (policy, processes and risk database), based on industry best practice, and aligned with ITER-International Organisation and European Commission, as far as practicable;
- Conduct and coordinate comprehensive risk assessments across the F4E organization, in accordance with the defined methodology and strategy and supported by the Risk Champions, including qualitative and quantitative assessments on schedule, cost (including contracts), and transversal risk areas at corporate level;
- Establish and manage risk monitoring processes and procedures to track and report in real-time on key indicators, incidents, and emerging risks. Conduct Monte Carlo simulations to enhance risk management processes and increase reliability on schedule and cost estimates;

- Analyse risk related data, identify trends and present comprehensive enterprise and portfolio risk reporting internal and external stakeholders (Project Steering Meeting, Leadership Team, governance and audit bodies);
- Develop and deliver risk management trainings, ensuring the implementation of F4E's internal control system, and liaise with the ITER International Organisation, EU agencies and project organizations on project risks and risk management best practices.

## What can we offer you?
