

Luigi Sciusco is the Head of Administration in Fusion for Energy (F4E). He brings more than 30 years of experience in the European and public-sector environments with a proven track record in corporate services, digital transformation, operational resilience, security, facilities management and governance.

Before joining F4E, Luigi was Head of ICT and Corporate Services at the Single Resolution Board (SRB) in Brussels, where he led multidisciplinary teams and managed integrated corporate services supporting the organisation's operations. He started his career at the SRB as a Seconded National Expert from Banca d'Italia, contributing to resilient services, digital collaboration platforms and structured governance processes.

Earlier in his career, Luigi held leadership and technical roles at the Italian Resolution Authority, Banca d'Italia, Nissan, IBM and Italtel. His work covered ICT operations, cybersecurity, business continuity, crisis management, critical financial infrastructure and complex technology projects. He also represented his organisations in European and international committees as well as working groups.

Luigi holds a master's degree in electronic engineering, *summa cum laude*, and is a registered engineer. Throughout his career, he has focused on turning strategic priorities into reliable services, transparent processes, and measurable results. He is committed to people-centred leadership, staff wellbeing and inclusive collaboration. He sees Administration as a strategic enabler that can support colleagues by safeguarding accountability and transparency, while helping F4E to deliver on its mission effectively and responsibly.
